ORACLE

Certified Professional

Java SE 6 Programmer

Professional Summary:

- 11+ years of experience on Java, Java EE Technologies
- Experience in analysis, design, development and testing of software systems using Agile/Scrum methodology. Extensive experience in developing applications using Spring Boot, Microservices and automated AWS infrastructure provisioning via Terraform

Professional Experience:

JP Morgan Chase & CO –Associate Software Engineer III Jan-2022 to Present

- Design, Development, testing and deployment of Microservices in AWS Cloud infrastructure
- Implemented scalable AWS serverless infrastructure using Terraform.
- Writing unit test cases. Participate in planning and design meeting with business team
- Providing support to Production issues.

Tools and Technologies: Java 17, Spring Boot 3, Spring Web Flux, Spring Data JPA, AWS, JUnit, Splunk, Docker, Kubernetes, Terraform, EKS, S3, SQS, DynamoDB, AWS Lambda, Resilience4J, AWS Java SDK, AWS KDS (Kinesis Data Stream), AWS EventBridge, Python, AWS Glue, AWS Step Function, ReactJS, ECS, AWS Redis cache

Ford –Software Engineer Aug-2021 to Jan-2022

- Development, testing and deployment of microservices in pair programming model.
- Working on Production Support issues. Following test driven development.

Tools and Technologies: Java 11, Spring Boot 2, Feign, Spring Data JPA, Spring Cloud, Pivotal Cloud Foundry, JUnit, Splunk, Dynatrace, Grafana, Azure CosmosDB

Virtusa –Lead Consultant May-2021 to Aug-2021

- Converted monolith application to Microservices architecture using Spring Cloud.
- Implemented Zipkin for distributed Microservices monitoring. Write unit test using Mockito, JUnit

Tools and Technologies: Java 8, Spring Boot 2, Feign, Spring Data JPA, Spring Cloud, Docker, JUnit

Deloitte Consulting –Solution Specialist May-2017 to May-2021

- Worked on challenging user stories by following sprint deadlines
- Providing support to UI team for interaction with Web Service.
- Leading Grooming call from Service team by interacting with client.
- Implemented Microservices using Spring Cloud framework
- Solving Defects raised by testing team. Providing support to testing team.

Tools and Technologies: Java 8, Spring Boot 2, Spring Data JPA, Spring Cloud, Zuul, Eureka, Spring Cloud Config Server, Kafka, Hystrix, Docker, Kubernetes, React JS, Swagger, Mockito, OAuth2, JIRA

Dell -Software Development Analyst

February-2015 to May-2017

- Actively involved in bug fixing. Involved in coding for DAO, Services and Controllers
- Maintain Reservation Tunnel for completing Hotel Reservations online using Spring Web Flow
- Implemented Spring Web Flow XML file by creating different scopes and transition
- Used TestNG and Mock objects for Unit testing the classes
- Did the application support on different environments from QA to Production. Was responsible for analyzing the issues, providing technical & functional support to the users and fix them.
- Working on User Stories from JIRA. Following Sprint deadlines. Use Agile/Scrum methodology.

Tools and Technologies: Spring4MVC, Spring Web Flow, JDBC, JPA, TestNG, GIT, RESTful Web services**E-Procurement Technologies - Software Developer**

January-2013 to July-2013

- Implementation and Integration of Controller, JSP using Spring UI tags, and DAO module.
- Configuration of Spring XML files. Write HQL queries. Use JUnit for Unit Testing.

Tools and Technologies: Spring3MVC, Hibernate4, jQuery, JUnit, Maven**SPEC India - Software Engineer**

July-2011 to July-2012

- Use of Struts2 UI tags. Integration of Struts and Hibernate. Mapping Action using Struts XML files.
- Configuration of Spring XML file to achieve Dependency Injection. Implement Struts2 Interceptors

Tools and Technologies: Struts2, Hibernate3.6, Spring3 (DI, AOP, DAO), JavaScript**Technical Profile:**

- **Frameworks:** Spring Boot, Spring Cloud, Hibernate4, Spring4 (DI, AOP, DAO), Spring4 MVC, Spring Web Flow, React JS
- **Cloud Infrastructure:** AWS (ECS, S3, CloudWatch, Dynamodb, EKS, SQS Dynamodb, Lambda, KDS, EventBridge, Glue jobs, Step Function)
- **Containers / Orchestration:** Docker, Kubernetes
- **DevOps & BuildTools:** Terraform, Maven, Gradle
- **Java SE & EE Technologies:** JDBC, RMI, JNDI, JSP, Servlets
- **Web Technologies:** JavaScript, JQuery, AJAX, JSON, HTML5, CSS3
- **Database Systems:** MySQL, MongoDB, Oracle, SQL Server 2008
- **IDES:** IntelliJ, Spring Tool Suite (STS), MyEclipse, Eclipse, NetBeans
- **Testing Frameworks:** JUnit, TestNG, Selenium, Mock, Jasmine
- **Application Servers & Version Control:** Tomcat7, Jboss, WebLogic, BitBucket, GIT

Academic Profile:

- **Master of Science in Management Information Systems**
University of Houston-Clear Lake May-2015 with 3.48 GPA
- **Bachelor of Engineering in Information Technology**
Charotar Institute of Technology - Changa, Gujarat University June-2011 with 3.63 GPA
